**** 1958-1959**

You are urged to read carefully the brochure prepared by the Cooperative School District Committee. This brochure proposes a regional high school for the towns of Barrington, Northwood, Nottingham and Strafford. This regional school could well be the "Hub" of the educational philosophy as reflected by the voters in the four towns.

A sequential curriculum could then be developed for the elementary and secondary program which would give your children the optimum in educational opportunity. It would seem that the advantages of a Cooperative School District are many.

The decision is up to the voters of this community, and it will be determined by the value that you set on the education of your children. The problem is reduced to that of minimum standards or something substantially more than minimum standards.

Serious consideration should be given to the consolidation of the three elementary schools. The possibilities of a four room building with a multipurpose room to house grades 1-8 should be explored and long range planning is inevitable.

All pupils in grades 1-6 have taken the Stanford Achievement Test and the California Test of Mental Maturity this year. Parents interested in their childrens' scores should contact their respective teachers.

In conclusion, I wish to thank the School Board, Citizens and Teachers for their cordial cooperation during the year.

Respectfully submitted

Ramon Martineau
